EDUCATION

Computer engineering

Shahid Montazeri Technical and Vocational University

September 2025 – present

CORE EXPERTISE

- Android (Java)
- Android Studio & XML
- SQLite & MySQL
- REST API (Retrofit/Volley)
- MVVM Architecture
- Git & GitHub

LANGUAGES

- Persian (Native)
- English (Intermediate)

PROFESSIONAL SUMMARY

Android developer with 5+ years of self-directed experience in designing, developing, and publishing high-quality mobile applications. Expert in Java, Android Studio, SQLite, and REST API integration. Proven track record of delivering user-centric solutions with a strong focus on security, performance, and continuous improvement based on real user feedback. Experienced in cross-functional team collaboration under tight deadlines. Passionate about creating practical, elegant, and efficient software that solves real-world problems.

KEY PROJECTS

CardBank – Secure Bank Card Manager

Technologies: Android (Java/Kotlin), SQLite, XML, Material Design

Published on: CafeBazaar & Myket – 3.8k+ installs, 4/5 rating

Role: Sole Developer & Product Owner

- Designed a complete security layer (PIN-lock, encryption, backup/restore)
- Built a high-performance search algorithm filtering thousands of cards in milliseconds
- Added customizable theming (dark/light, color accents) based on user behavior
- Actively collected user feedback, prioritized requests, and released regular updates
- Owned the entire lifecycle from ideation to publishing and post-launch support
